1 Chapter 1: Functions and Limits

1.1 Tangents

1.1.1

A curve has equation $y = f(x)$. (a) write an expression for the slope of the secant line through the points and (b) write an expression for the slope of the tangent line at P

1.1.2

1.1.3

1.1.4

1.1.5

2 Chapter 2: Derivatives
